G.M Message

DEAR VALUED CUSTOMERS,

Ever since the establishment, we have endeavored to contribute to the prosperity of our clients and society from a global perspective.

Behind our great success is a venturesome, entrepreneurial spirit. This pioneering spirit that has driven us to journey into unknown territories remains deeply embedded in our DNA. For the past 22 years, Dtd logistics (Pvt.) Limited has lived with great passion. Despite being one of the oldest logistics solution provider our vibrant mindset keeps us young and unafraid of change.

MR. AMJAD SIDDIQUE
GENERAL MANAGER
Dtd LOGISTICS (PVT.) LTD.

Sustainability

DtoD logistics Sustainability Policy guides, supports and provides thought leadership to DtoD logistics in embedding sustainability in their business strategies. The sustainability policy also helps DtoD logistics to integrate sustainability considerations into all decisions and key work processes, mitigating future risks and maximizing opportunities.

DtoD logistics sustainability policy articulates how DtoD logistics creates long-term value by integrating economic, environmental and social considerations.

We believe that sustainability is everyone's job and that a sound corporate sustainability governance framework promotes strong leadership by all our management. Sustainability is the foundation of good management practices, contributing to the long-term success of companies and better risk-adjusted returns for our customers.

HSEQ Policies

Health Policy

DtoD logistics Private Limited manage business activities to keep health risks to a minimum. We provide a healthy working environment with the appropriate level of surveillance and support. We provide expert medical support to our people to ensure that appropriate health examinations and preventative medicines are provided.

DtoD logistics Private Limited promote good occupational health by ensuring compliance with regulatory requirements and by providing clear guidance and information through our health principles.

Safety Policy

DtoD logistics Private Limited operates a risk management approach to our activities whereby we identify hazards, assess the associated risks and then work to eliminate the hazards or reduce the risks to a tolerable level.

Everyone who observes an unsafe situation or who feels it is not safe to continue with a task has a duty to intervene and stop the job. Such intervention will always be supported by DtoD logistics Management.

We are convinced that encouraging safe behavior and highlighting the importance of personal safety as a way of life will help to create a work environment where our people are safe and secure. Our safety culture and management are supported by the DtoD logistics Private Limited safety principles which include all safety training.

Environmental Policy

DtoD logistics Private Limited always conducts our business in a way that considers the environment and which aims to keep any negative impact to a minimum. This policy is managed by close attention to achieving regulatory compliance and continually improving our environmental performance through careful selection of consumables and working practices designed to reduce waste, energy consumption and emissions.

Awareness of the impact that our activities may have on the environment and the management of measures to control such impacts is encouraged through our environmental principles

Quality Policy

We committed to deliver high quality and effective services that contribute to a better future for diversified needs and demands of our customers and society. This commitment is driven by our corporate mission to become the world's preferred supply chain logistics company, and by our values and behaviors under management initiatives. We further committed to ensure continuous customer satisfaction by rendering cost-efficient specialized logistics services.

Compliant Fleet

DtoD logistics understands the challenge that road transport operators face with keeping up-to-date with, and on top of regularly changing legislation and developments within transport policy. As a leading logistics provider to the oil and gas industry, DtoD logistics is fully committed to all its compliance obligations. We adhere to both internal and external codes of practice to ensure that our services are of the highest standards and that we are acting as a responsible corporate citizen.

DtoD logistics has a dedicated fleet of 900 OGRA Compliant Tank Vehicles, with latest real time tracking and communication system; we have the capability to cater all kinds of diverse transportation needs for our clients' supply chain.
